

8 February 2023

To whom it may concern:

ISACA is a global association formed in 1969 that helps individuals and enterprises achieve the positive potential of technology. Today's world is powered by information and technology, and ISACA equips professionals with the knowledge, credentials, education and community to advance their careers and transform their organizations. ISACA leverages the expertise of its 460,000 engaged professionals in information and cybersecurity, governance, assurance, risk and innovation, as well as its enterprise performance subsidiary, CMMI Institute, to help advance innovation through technology. ISACA has a presence in 188 countries, including more than 220 chapters worldwide and offices in both the United States and China.

I am writing with regards to the ISACA Israel Chapter, a local chapter of ISACA pursuing similar objectives. The chapter was formed in 1979 and has grown due to demand. Currently the Israel Chapter has 605 members.

The ISACA Israel chapter is currently the only formally approved ISACA chapter in the country of Israel.

Please let me know if you have any questions. Thank you.
